72-Hour Fixed-Price Automation Pilots & White-Label Partner Program

Zero-Risk Production Builds for US/UK/EU Agencies & Regional WISPs — 100% Credited Toward Month-1 Retainer

$650 USD Fixed • 72h Delivery

Pilot A: Agency Reliability & Self-Host Sprint

For GoHighLevel, n8n, Zapier & AI Agencies losing margin to SaaS tiers or fragile webhooks.

- **Full Audit:** Review your highest-cost or most failure-prone Zapier/Make/GHL workflow.
- **Production Migration:** Migrate & harden **1 mission-critical workflow** onto self-hosted n8n + Docker VPS (<$30/mo infra).
- **NOC Guardrails:** Add webhook validation, exponential retries, and Slack/Email failure alerts.
- **Handover:** Complete architecture brief + SaaS savings calculation + 5-min walkthrough video.

$750 USD Fixed • 72h Delivery

Pilot B: WISP NOC & WhatsApp Triage Pilot

For Wireless & Fiber ISPs running MikroTik, Ubiquiti, or GPON OLTs buried in Tier-1 tickets.

- **Ticket Audit:** Map top repetitive Tier-1 interruptions (outages, billing checks, PPPoE/CPE resets).
- **Live Deployment:** Ship **1 automated triage flow** (WhatsApp Cloud API + Chatwoot + Python/FastAPI connector to MikroTik/Billing).
- **Human Handoff:** Seamless escalation to NOC technicians with full subscriber diagnostic context attached.
- **Handover:** Self-hosted Docker Compose stack + operator runbook.

White-Label Technical Partner Program (Under Strict NDA — US/UK/EU Agencies)

Your agency sells $3,000–$8,000/mo AI & GHL retainers. I operate invisibly inside your Slack/ClickUp as your Senior Backend, Docker, FastAPI & GHL L2 Engineer so your team never turns down complex technical scopes.

Engagement Tier	Investment (USD)	What Your Agency Gets
Turnkey Complex Build	**$950 – $1,500 fixed**	End-to-end self-hosted n8n/Chatwoot/FastAPI/GHL build ready to resell to your client at 3x margin.
Dedicated White-Label Partner	**$2,200 – $3,500 / mo**	Priority SLA, ongoing client workflow maintenance, custom Python API middleware, and US EST overlap.

Pablo Ian Laurino — Senior Automation & NetOps Engineer (7+ yrs ISP Ops | n8n, FastAPI, GHL L1/L2, Docker)
